Is it getting difficult to find help each season when it is time to put your dock in and out? A Tower Dock by On the Water Designs can be lifted & lowered by yourself or with a single helper. Enjoy your dock on your schedule!

Designer Series

W. M. H. H. H. M. M.

Tower Docks are most suitable in water less than 8' deep and where fluctuation is minimal when a boat is tied to it. Muddy bottoms are not a problem but need to be managed properly to ensure easy removal. Tower Dock solutions inlude a strong mounting point at shore as well as a solid winch point that holds the dock over the winter.

All tower components are hidden below the decking for the summer.

All Tower Docks Include:

- ✓ Hidden Tower Design
- ✓ 8' Towers include HD Tower Upgrade
- ✓ All Rigging Between Tower & Dock
- ✓ Foot Pads & Pole Caps
- ✓ Reinforced Frame & Connection Points
- ✓ 10 Year Welded Frame Warranty
