Floating Docks

Designer Series

Our Designer Series Floating Docks are hand crafted by experienced welders using the highest quality Canadian materials at our factory in Muskoka. Every Designer Series Floating Dock utilizes very reliable foam filled plastic Permafloat dock floats. Our full range of float sizes allow us to choose the right float to fit your design. Most residential applications are designed for 25 lbs / SqFt, while docks typically holding more people are upgraded to 40 lbs / SqFt. Our standard designs float at 14" off the water, but we also have designs that can float at 18" to make it easier to step from your dock to a pontoon boat. Floating docks are ideal for deep water conditions allowing for freedom of movement with the fluctuating water levels.

Designer Series Floating Docks Include:

- ✓ Frame, Floats & Decking (If Purchased)
- ✓ Chain Retainers at Corners
- ✓ 15' & 20' Ramps Include Stiffener & Float
- ✓ 10 Year Welded Frame Warranty
- ✓ 15 Year Float Warranty

DID YOU KNOW?

Box floats are the best choice for flotation when big waves are less common.

Box floats offer maximum stability for walking & sitting due to the large surface area in contact with the water but for the same reason they also lift more easily when big waves occur.

Are big waves your normal? Check out our Titan Series Floating Dock with pontoon floats

Corner Walkway	3'	\$ 610	\$ 680	\$ 680	\$ 890
